DETAILED ACTION

Response to Amendment

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Allowable Subject Matter

2. Claims 1-11 are allowed.
3. The following is an examiner's statement of reasons for allowance:

A search of the prior art did not disclose a liquid crystal display comprising a combination of structural elements, more specifically:

(a) The light emitting units for colors according to the anode electrodes and the cathode electrodes are installed to provide light of each of the R, G and B colors to each pixel of the liquid crystal panel.

As pointed out by the applicant in the arguments, the cited prior art does not teach the above recited limitation. The previous office action mistakenly cites that the prior art by Littman discloses such a limitation. However, in Fig. 4, Littman's device shows that three separate pixels are associated for each of the R, G and B colors and not a single pixel for each of the colors.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
